

Insurance Narrative for Occlusal Guard

D9944: Occlusal guard—hard appliance, full arch

D9945: Occlusal guard—soft appliance

D9946: Occlusal guard—hard appliance, partial arch

Attention: Dental insurance company

Re: Patient Name

ID #:

The patient referenced above visited our office on _____ for a comprehensive oral evaluation. Upon examination, it was determined that the patient suffers from severe bruxism. The patient is experiencing the following symptoms and is in need of an oral appliance:

Pt suffers from jaw pain when initially waking in the morning

Teeth-grinding and jaw-clenching leading to increased sensitivity

Worn tooth enamel on the occlusal surface and hairline fractures

It is my recommendation that the patient referenced above be provided dental plan benefits for fabrication of the necessary oral appliance.

If you have any questions or would like to discuss the diagnosis further, I can be reached at the phone number listed.

Thank you,

Dr. _____
